

Energy Monitoring

Connect the Emporia Smart Plug securely over 2.4Ghz WiFi, plug in a lamp or appliance and monitor and analyze electricity use 24/7. When paired with the Emporia Vue energy monitor, Smart Plugs can help balance energy consumption for Peak Demand utility plans as well as automate usage of excess solar power to run appliances connected to them.

Save Money

Save money with smart scheduling with built in on/off scheduling capabilities. Use your Smart Plugs to automatically switch on and off appliances and devices when not in use to save money on your energy bill.

Remote Control

Anytime, anywhere. Control appliances remotely using the Emporia App on your phone. Leave the lights on? Forget to turn off an appliance? Check the real-time status and toggle it on or off from wherever you are.

Voice activated

Compatible with Amazon Alexa (US only) and Google Home Assistant; Emporia Smart Plugs can be operated by your voice.

Features

Named best energy monitoring smart plug by CNET and PCMagazine

EL Certified

Control appliances or electronics that plug into 120V outlets with a 10A Maximum Continuous Load (15A Max Peak Load for up to 1hr/day)

1 Year Warranty.
